

SLAT LEADERSHIP MODEL – 2020/21

The Trust is led by an Executive Headteacher, supported by a team of Executive Deputy Headteachers that work across the Trust, which is a model that can be further expanded as the Trust develops. All of the EDHT team are proven successful leaders.

Additionally there are 2-4 AHT's in each school, which also creates an expandable model and Directors. The roles of Directors will support meeting the requirements of the STP in the SLAT schools. These roles replace the traditional leadership model and this structure will allow for the Trust to expand, creating appropriate CPD opportunities for staff and enabling school improvement at a faster pace.
